WELCOME TO OUR LIGHTING WORLD

Step into a world of illuminating wonders as we proudly present our stunning 2023 lamps collection, which was displayed at prestigious trade fairs attended by BRITOP Lighting throughout the year 2023, including Maison&Objet in Paris, EuroLuce in Milan, Lichtwoche in Sauerland, and Index Fair in Dubai. These exceptional products are featured in this catalog ahead of their official release in our regular catalog. This exclusive preview allows you to get a glimpse of our finest innovations and newest designs.

Our lamps showcase exceptional design, epitomizing sustainability as their core essence. They go beyond being simple light sources, meticulously designed to embody the spirit and essence of the places where we proudly present them at fairs. Inspired by diverse cultures, our designs reflect a harmonious fusion of creativity with a deep connection to cultural landscapes, setting our products apart from all others.

At the heart of our production process, we prioritize the use of sustainable and eco-friendly materials, including wood, metal, and glass. Additionally, our lampshades are crafted using special eco-conscious materials such as Boucle derived from recycled plastic bottles as well as jute and linen. This commitment to sustainability ensures that our lamps not only illuminate spaces with grace but also contribute to a greener and more environmentally conscious world.

Allow us to present our unique line of ECO HOME lamps, where BRITOP Lighting goes above and beyond in the zero-waste era. With 100% plastic-free packaging and biodegradable elements, our sustainable lamps are crafted using up to 95% plastic-free components. By employing eco-friendly materials sourced from Europe, including FSC®-certified wood, our lamps prioritize sustainability while offering efficiency, durability, and repairability. Embracing natural alternatives, our lamps feature connector boxes made of ceramics, wires coated with caoutchouc, insulation boots made of silicon, and lampshades made of eco-cellulose, cotton, linen, paper, metal, or glass, all without any use of PVC foil.

TESSUTI

Il design contemporaneo si è sempre più orientato verso l'uso di materiali naturali e sostenibili, come il cotone, il lino e il bambù. In questo modo si favorisce un ambiente più sano e si riduce l'impatto ambientale. I tessuti utilizzati per le lampade sono spesso realizzati in modo etico e sostenibile, con processi di produzione che rispettano l'ambiente e il benessere delle persone. In questo modo, le lampade non solo illuminano lo spazio, ma contribuiscono anche a creare un ambiente più sano e armonioso. I tessuti utilizzati per le lampade sono spesso realizzati in modo etico e sostenibile, con processi di produzione che rispettano l'ambiente e il benessere delle persone. In questo modo, le lampade non solo illuminano lo spazio, ma contribuiscono anche a creare un ambiente più sano e armonioso.

LIN de Pologne

Sélection des richesses de la nature. Illuminé votre espace avec des abat-jour collectés dans le nord de la Pologne. Élégance respectueuse de l'environnement. Un lin, un tissu biodégradable, un aspect rustique sur votre planète grâce à un abaissement progressif.

Harmonie avec la nature. La culture du lin est devenue une tradition, avec une fibre naturelle respectueuse de l'environnement et d'une collection de produits.

Sophistication durable. Une inspiration du monde de lin, plus durable, au design moderne.

Beauté intemporelle. Un charme éternel de lin, gracieux après une touche d'élégance et de grâce à l'origine qui étonneront.

LINEN from Poland

Embrace nature's beauty. Illuminate your space with lampshades crafted from the finest linen fibers.

Eco-friendly elegance. Linen, a biodegradable fabric, leaves no harmful impact on our planet as it gracefully decomposes.

Nature's harmony. Linen cultivation is gentle on the environment, with minimal pest intervention and zero pesticide use.

Sustainable sophistication. Experience "zero waste" living, where every part of the fiber plant finds purpose and beautiful design.

Timeless beauty. Polish linens enchanting you with a touch of elegance and grace to any setting.

TEXTILE

...with a textured surface, made of natural fibers, and a warm, organic feel. The design is simple and functional, with a focus on texture and light. The lamps are made of a natural material, possibly linen or cotton, and are finished with a black band. The overall aesthetic is modern and minimalist, with a focus on natural materials and textures.
